[< Back to Login](#)

You will shortly receive an email, click on the link in the email to access a page (see below) where you can enter a user name and password to establish your Family Portal account.

The password must be at least 6 characters long and must contain at least one number and letter. Remember to click the **Save Username and/or Password** button when you are done.

The screenshot shows a web form titled "Change/Create Password". It contains five input fields: "Name", "Person ID", "User Name", "Password", and "Confirm". The "Name" field is partially filled with "Person ID". Below each of these five fields is a red arrow pointing upwards. To the right of the "Confirm" field is a button labeled "Save Username and/or Password", with a red arrow pointing upwards to it. The entire form is enclosed in a thin red border.

A message will display at the top of the screen to tell you your User Name/Password was successfully updated.

You can now go back to the Family Portal [Login page](#) and login using the User Name and Password you just created.

If you have any difficulty please email ithelp@frcs.org for assistance.
